## SYMPTOM ACTION PLAN

**What is it?** The Symptom Action Plan is designed to help you and your doctor and care coordinator to manage your illness. The Symptom Action Plan identifies the action you should take when these signs appear.

If the state of your illness or course of treatment changes, you can use the Monitoring Diary to write down the details. This information can then be used to decide what modifications need to be made to your Symptom Action Plan.

**Who completes the forms?** The Symptom Action Plan is to be completed by your doctor or care coordinator.

**How do I use it?** Veterans can carry the Symptom Action Plan with them (i.e. wallet or handbag) or place it on their fridge, so that they can refer to it, at any time, as the need arises.

**If in doubt?** If for any reason you are in doubt about what to do, then contact your doctor or care coordinator for advice. If they are unavailable, then contact the Emergency Department of your local hospital.
