

## References and Recommended Resources: Module Two – Care Planning and Coordination

This list includes all references for the module as well as a number of recommended resources.

All web links in these resources are active at time of publishing and are reviewed on a regular basis. Please report any web links that do not work to: [CVCProgram@acu.edu.au](mailto:CVCProgram@acu.edu.au). If you find a link that is not working, enter the title into the website search box or use a search engine (e.g. Google).

Links are to PDF documents, specific web pages or to a whole website. This is because there may be more than one item of interest to review at a website or the information is updated regularly meaning specific website links may change.

Links to whole websites may require you to enter the resource title into the search box on that page or use the navigation bar at that website to access the specified titles or pages.
